Breeding & Rearing Ponds at the new TRCC

A nine by twelve meter area shall be used for the construction of eight small ponds.

Six of them with sizes of approx.. 120 x 140 cm outer size and 60 cm deep should serve for keeping smaller species in quarantine, for breeding purpose or for rearing of hatchlings till they reach sizes appropriate for being released to outdoor enclosures

Two of them for mating purposes of softshells being built in bigger size of 220 x 140 cm.

All of them must receive small anti-escape fencing and a surrounding part of land for egg laying and basking.

To the left is shown one of the breeding and rearing ponds at Kasarah – Chitwan National Park which seem useful for keeping single aggressive specimens or smaller ones for mating and breeding as well for rising hatchlings under climatically almost natural conditions

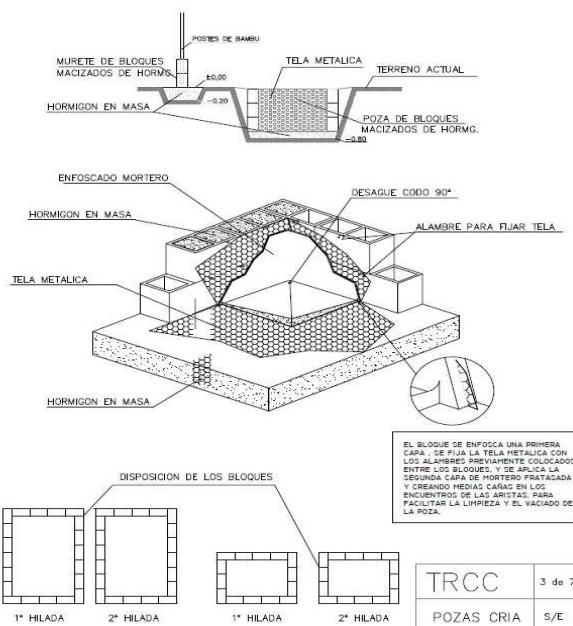

Schematic three-dimensional view for construction of breeding ponds

Most grateful we acknowledge that great collaboration and contribution again to
D. Diego Tovar
Who already helped in the early phase of planning with his architectural advices

DETALLES CONSTRUCTIVOS

!!!!Make your Donation Now!!!! Vote for Turtle Conservation and support our project in SE Nepal that we can continue with our project development for rescuing, homing and breeding endangered turtle species of Nepal:

Construction of simple Workshop under open air conditions

Above: Details for the construction of an open workshop area closely attached to the breeding and rearing unit

Right: D. Diego Tovar and D. Jose Maria Rodriguez Linde, both living in Almeria (S-Spain) are working as collaborators and members of Arco-Nepal for the detailed planning of the Turtle Rescue and Conservation Centre at Budo Holi / Jhapa – S-Nepal. ARCO-Nepal commits many thanks for their infatigable contribution and help.

Progress Report in the building of ARCO-Nepal Turtle Rescue & Conservation Centre Budo Holi in SE-Nepal:

Termination of small lake (270 sqm) and three ponds for terrapins and softshells

Prof. Dr. Khambu Rai Initiator and founder spirit of the Budo Holi Nature Reserve
Here accompanied by a helper shown at the artificial lake at the reservoir

Prof. Rai accompanied by new ARCO collaborator Nabin Battarai and SUMMEF representants Mr. Tanka Battarai and Dinesh Karna

Heavy project work had been realized during the last months by employing local people for excavation and cementation work for the new ponds and small lake. Heavy iron armouing, plastic lining and concrete plastering shall give long durability to the installations.

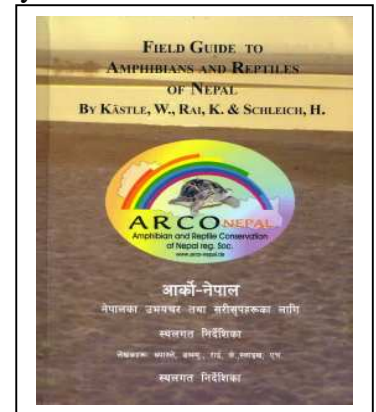

FIELD GUIDE to Amphibians and Reptiles of Nepal

Kästle, W., Rai, K. & Schleich, H.H.

with identification keys and distribution maps, Size A 5, 625 pages,
52 pl./156 color photographs, 177 maps, over 1000 black/white illustrations

Mourning for a

Great Friend, Wonderful Person Trustee & Editor of ARCO-Es, Member & Enthusiastic Volunteer

Terry became member to ARCO-Spain in 2013 and immediately took over responsibility, weekly volunteer work and collaboration, brought spirit and activities as chief-editor for our newsletter, acted as fundraiser and trustee, coordinator and organizer for first volunteers days and unforgettable our first and successful 1st open day event on October 5th, 2013.

**Terry was the person to put hands on, helping mentally and physically with ideas, patience, great humor and own independent most helpful contributions
....and never having any a bad word for anyone or anything**

..... For the Open Day Event & Inauguration of Centro de Interpretación de Anfibios y Reptiles de la Provincia de Almería TERRY greatly collaborated to its development and success.....

.....what we never forget and acknowledge every day having spent together

It was a long term desire and effort to reach –

TERRY started as chief editor our first official newsletter and gave it format and appearance

**Terry always was much and more than welcome to all of his friends –
and he had many of us**

– he left us with only 58 years much too early

Assemblage meetings, volunteers day, preparation work,whatever TERRY was always with us and will it always be

IN OUR MINDS AND HEARTS
